## 02. HOTELS FOR EVERY TASTE AND BUDGET

Do you prefer large and modern, small and full of character, five star or economy? Utrecht offers an option for you. Beyond that, it offers a rich experience that will be remembered. Whether you like to be immersed in nature, want to feel a strong connection with the cultural landscape, sleep in an old fort or wake up in innovative design, you'll find it in Utrecht.

## 03. A WHOLE TEAM DEDICATED TO YOUR CONGRESS SUCCESS

When it comes to organizing and realizing your congress, you can rely on our experienced and enthusiastic professionals with a knack for collaboration, planning, and more. Thanks to their focused dedication to your success, you can excel as a host with an inspiring and memorable meeting, getting the most out of your congress in Utrecht.

## 04. DEEP AND BROAD KNOWLEDGE AND CULTURE

The myriad knowledge centres and cultural institutions here serve to enrich and deepen the exchange of knowledge for your participants. Utrecht is a global village in a literal sense, combining intimate scale with international connection. Green spaces, diverse shops, award winning knowledge centres mix, to compelling results.

## 05. INTERNATIONAL ACCESSIBILITY

Utrecht is an easy reach for visitors, no matter where they're coming from. 30 minutes takes you from Amsterdam Schipol Airport to the heart of Utrecht, its central station an easy connection from a range of surrounding countries. Paris, Brussels and Frankfurt trains are fast and frequent.

## 06. BEAUTIFUL REGION

Utrecht is surrounded by a mosaic of landscapes, picturesque villages, welcoming cities and a rich cultural heritage. The broader Utrecht region offers unique conference and exhibition opportunities, all close to the city. It connects the metropolitan advantages of Utrecht with more rural opportunities, expanding the possibilities to find a suitable conference or meeting location.

## 07. OUTSIDE THE BOX EXPERIENCES

Some say it's pre- and post-conference excursions that prove the most fertile and memorable for participants. We can help facilitate experiences in locations not normally accessible to the public, plus a broad menu of other social program opportunities.

## 08. MANY SUBSIDIES AVAILABLE TO ELEVATE YOUR CONGRESS

The Utrecht region is invested in the success of your conference, via a number of subsidies, the Royal Netherlands Academy of Arts and Sciences among them.

## 09. FAVOURABLE PRICE-QUALITY RATIO

Simply put, your money goes farther in Utrecht as compared to other European cities, making an attractive and responsible option.

## 10. ADVICE FROM THE UTRECHT CONVENTION BUREAU

When it comes to making the best choices and maximizing the impact of your congress, UCB knows the way in Utrecht. Both in the city and in the broader region, we lay out the right connections for you via our varied network. From planning to execution, the impartial advice and professional support of the UCB creates sustainable value for everyone who cooperates and participates throughout the entire process.

# A FOCAL POINT OF KNOWLEDGE AND CULTURE, HISTORY AND INNOVATION

*Utrecht is a city that will spark your visitor's imagination. As will your congress location, of which both historic and leading edge facilities are available. Effortlessly weaving together a deep past and an inspiring future naturally increase knowledge and imagination. Utrecht enjoys a growing international reputation, not only because we have the highest density of knowledge services in our country (think of RIVM, TNO and KNMI), but also the abundant passion and inspiration in the air here.*

## **UTRECHT SCIENCE PARK**

Scientists and entrepreneurs join forces in the Utrecht Science Park (USP). Integrating the best University in the Netherlands (Utrecht University), one of the largest public healthcare institutions (University Medical Centre) plus dozens of innovative companies and research institutions, the Utrecht Science Park is the beating heart of the knowledge economy. Scientists, entrepreneurs, local authorities and citizens are working together to create a greener, healthier and smarter Utrecht, which is leading the way worldwide when it comes to quality of life. We make Utrecht together. Education, research and entrepreneurship reinforce each other in an open innovation environment. National and international conferences are a crucial part of this.

## **UTRECHT UNIVERSITY**

Utrecht University was founded in 1636 and has become a modern, leading institution. Research is a key facet of the university, with seven faculties that make connections within the entire scientific spectrum of research and education. This versatility

forms an inspiring basis for multidisciplinary research both within and outside the university. Given this, it's clear why the Shanghai rankings of best universities have placed it in the number one position in the Netherlands for years.

## **THE HUBRECHT INSTITUTE**

The Hubrecht Institute for Developmental Biology and Stem Cell Research is one of the largest players in the international field of biomedical research into stem cells and developmental biology. It is located on the campus of Utrecht University and affiliated with the University Medical Centre Utrecht, which preserves the connection with both the academic world and the practical application of research in the medical field. The research by the Hubrecht Institute provides critical insight into human diseases such as cancer, heart failure and diabetes. By studying the mechanics of the cell precisely, researchers are increasingly able to manipulate cells and even to cultivate whole pieces of transplantation ready tissue in the lab.

## **THE UNIVERSITY MEDICAL CENTRE UTRECHT**

UMC Utrecht is one of the largest public healthcare institutions in the Netherlands. Almost 10,000 people create care that connects knowledge and people. Every aspect is equally important: the knowledge about illness and health and the people who can generate, apply and transfer this knowledge. It's this that makes UMC Utrecht an internationally leading medical center. Here, knowledge about health, illness and care, for patient and society, is made, tested, shared and applied.

## **UNIVERSITY OF APPLIED SCIENCES UTRECHT**

HU University of Applied Sciences Utrecht is a knowledge organization with offices in Utrecht and Amersfoort that work on innovation and elevation of professional practice through high-quality education and research. 3,300 employees serve 39,000 students. Our students and staff are just as diverse and inspiring as the courses offered. Teachers and students both engage in applied research here that establishes new connections between important social, technical, cultural and economic developments.

## **UTRECHT SCHOOL OF THE ARTS (HKU)**

HKU is a driving force in training and innovation for the creative industry, via arts and media focused higher education. HKU challenges students not only to excel in their specific talent, but to also learn to see and apply connections. Students are trained to be creative professionals who are also an innovative entrepreneur at the same time.

## **THE PRINCESS MÁXIMA CENTRE**

The Princess Máxima Centre for pediatric oncology is the first center in Europe to combine expertise in healthcare and research at a single location. The hospital and the laboratory are therefore not separated as in most other centres. Children's oncology specialists from all over the Netherlands work together with top researchers from all over the world. Experts from different disciplines join forces here to bring together passionate progress.

# FACTS & FIGURES OF THE CITY OF UTRECHT

*As far back as 47 A.D., the Romans built a fortress as part of reinforcements along the Rhine where the Cathedral square (Domplein) is situated today. It was from there in the 7th century, when the English missionary Willibrord set himself up in that old fort, that a town began to develop. Utrecht then started to grow into an important city with considerable ecclesiastical power. On church feast days, churches, monasteries, convents and abbeys were full. Many traces of these buildings can still be seen throughout the city.*

## A CITY WITH MILLENNIA OF HISTORY

- The Romans built the Traiectum castellum (fortress) in 47 AD
- Willibrord repurposed the old castellum into a mission from 695 AD, converting the Netherlands
- In the peak of the medieval age, Utrecht was a religious and mercantile bastion, remaining the largest and primary city in the Netherlands until the 16th century
- The Union of Utrecht, the foundation for the Dutch Republic, is created in 1579
- Peace Treaty of Utrecht creates harmony amongst several European countries, 1713

## FAMOUS UTRECHT PEOPLE AND ICONS

- Dom Tower: Highest church tower of the Netherlands
- UNESCO World Heritage site nominated medieval harbour complex with canals, wharves and 100s of still active wharf cellars
- Adriaan Florenszoon Boeyens: The one and only Dutch pope (Rome, 1522)
- Gerrit Rietveld and iconic modernist Rietveld Schröder House (UNESCO World Heritage site)
- Dick Bruna and Miffy
- Anton Geesink (Olympic judo champion, 1964);
- Marco van Basten (FIFA World player of the year 1992)
- Wesley Sneijder (internationally famous football player, winner of Champions League 2010)
- Dafne Schippers (world champion sprint)

Utrecht is a very suitable location for international events. Among our success stories are the Grand Départ of the Tour de France in 2015 and 100 years of De Stijl in 2017: an exceptional exhibition of Piet Mondriaan, Gerrit Rietveld, Bart van der Leek and Theo van Doesburg in Utrecht and Amersfoort.

## A SELECTION OF YEARLY RECURRING EVENTS:

# A SELECTION OF UTRECHT ATTRACTIONS

*Utrecht offers a wide range of cultural experiences. Its Museum Quarter put it on the map, where historical attractions, museums and cultural institutions meld to create a unique, welcoming atmosphere.*

## **DOM TOWER**

For more than six centuries, the city and its surroundings have been dominated by the magnificent Dom Tower, the highest medieval building in the Netherlands. This 112 meter high symbol of Utrecht stays with you. Climb 465 steps and you'll be rewarded with a breathtaking view of the city and the rural beauty beyond it.

## **DOMUNDER**

An exciting, underground discovery among the archaeological remains of 2000 years of Dutch history. From the Roman Castellum Trajectum to the religious complex that was Utrechts nexus of power and prestige in the Middle Ages. You can pass through the immense pillar foundations of the gothic Dom Church, experience the devastating storm of 1674 and share the fascination of the archaeologist, exposing the past layer by layer.

## **CENTRAAL MUSEUM**

The Centraal Museum was built in 1838, making it the oldest municipal museum in the Netherlands. The museum is housed in various buildings, of which a medieval monastery is the most important. Inside it is a true labyrinth. You can get lost in the many passages and stairwells and be surprised by the varied collection of classical, modern and applied art, which can be found alongside fashion and collections reflecting the history of the city.

## **THE RIETVELD SCHRÖDER HOUSE**

In 1924, furniture maker and architect Gerrit Rietveld (1888-1964) realized this unique building. It is the only building built according to the architectural principles of De Stijl. Utrecht is internationally known as the city where Rietveld lived and worked all his life.

## **TRAJECTUM LUMEN**

A unique way to illuminate Utrecht's history and present, via a light artist curated voyage of discovery. From the centrally located Vredenburg you follow a light trail on the ground that leads past beautiful works of numerous artists. Nightly.

## **UTRECHT FROM THE WATER**

To get a truly up close sense of the pulse of the city, its terraces, unique lively wharf cellars and beautiful architecture, you have pedal boats, canoes and electric boats at your disposal.

## **MIFFY HOUSE**

The house of Nijntje/Miffy is a museum for all ages where you can discover the world of Dick Bruna's world famous creation: Miffy. In the Atelier Dick Bruna you can find out how he worked.

## **MODERN ARCHITECTURE & UTRECHT SCIENCE PARK**

With Utrecht University as the best university in the Netherlands, the University Medical Center Utrecht as one of the largest public health facilities in the country and the many innovative companies and research institutions, Utrecht Science Park is at the heart of the knowledge economy. Beyond that, a visit to Utrecht Science Park can be an enriching experience due to the many hidden architectural treasures. Internationally renowned architects such as Rem Koolhaas, Wiel Arets and Eric Egeraat designed award-winning buildings.

## **FESTIVALS & EVENTS**

Utrecht offers too many festivals throughout the year to count, with a program full of theater, dance, music, film, workshops and more on large and small stages, squares and parks.

## UTRECHT OTHER FACTS

### LANGUAGE

English is widely spoken in Utrecht and many people have a command of several other languages.

### CLIMATE

Utrecht's climate is quite temperate, with mild summers and cold but generally not frigid winters. Rain is spread fairly evenly throughout the year. Spring is sunny and pleasant, while from June to September things warm up and the city transforms. October and November are usually quite wet, while December to February are cold, but often sunny. Our weather is eclectic, throughout the year, and the day!

### DRESS CODE

Utrecht is a casual city. Restaurants at some smarter hotels may require men to wear a suit and a tie. Dark suits for men and neat attire for women are common in business and banking circles. ## THE UTRECHT REGION

## NATURALLY CONNECTED WITH THE CITY

*In Utrecht, you don't have to choose between modern, historical or idyllic environments for a conference. Conference organizers can not only go with the urban centre of the city, they can also quickly access the green region of Utrecht, where their visitors can stay in nature without any distractions and relax after absorbing and sharing all that knowledge and culture. In the Utrecht region you can get off the beaten track and combine nature, tranquility and beautiful old buildings from the region with all the advantages of a dynamic metropolis.*

### THE PROVINCE OF UTRECHT

Utrecht is the oldest, smallest and one of the most densely populated provinces in the Netherlands. It is the beating heart of the Netherlands: a centrally located province where living, working and recreation is good and plentiful. Here you will find beautiful, varied landscapes and attractive cities such as Utrecht and Amersfoort, excellent cultural facilities and internationally renowned knowledge institutes. The Utrecht road network is the most used road network in the Netherlands and the central station in Utrecht processes as many passengers as Amsterdam Schiphol.

### THE KROMME RIJN REGION

At the foot of the Heuvelrug and at the crossroads of the New Holland Waterline and the Roman Limes are beautiful estates, country houses and castles. Small-scale, hospitable companies like to welcome visitors to their fruit-growing company to enjoy seasonal harvests, a picnic on site often an option.

### THE GREEN HEART

An expansive nature reserve on the western side of Utrecht with local products, windmills and farms. Picturesque villages and towns, vast nature and many Dutch lakes are a rejuvenating visit.

### THE VECHT REGION

Discover the chic country houses and charming teahouses on the banks of the river Vecht.

### THE HOLLAND WATERLINE: WATER AS AN ALLY

Away from the hustle and bustle, in the heart of the Dutch water landscape, deeply hidden in the natural surroundings, just down a polder lane: the fortresses of the New Dutch Waterline. Robust locations that share a common fit, forming a line from Edam to Biesbosch, connected by walkways, bicycle paths and waterways. Nature, culture and history are close at hand. Together they tell a living, historical narrative of how water can become an ally in defense. It's a story that has been well kept and that can be experienced in a personal way.

## **NATURE, CULTURE AND HISTORY**

The Utrechtse Heuvelrug has become increasingly popular as a business destination in recent years. The combination of nature and historic locations such as Huis Doorn, Kasteel Amerongen and Slot Zeist creates an inspiring framework for multiday conferences, training courses and other business meetings. In addition, there are beautiful new venues which add extra colour to the region. Think of the impressive National Military Museum in Soest, the luxurious Parc Broekhuizen in Leersum and Pandasia in Ouwehands Zoo Rhenen where the giant pandas Wu Wen en Xing Ya reside.

## **SUSTAINABLE AND HOSPITABLE**

The locations on the Heuvelrug are qualitatively good at competitive prices. In addition, they have a warm heart for the environment and the natural environment of the National Park. They work with socially responsible products, and a number of locations donate a part of their proceeds to the charity.

## **OUTDOOR ACTIVITIES**

The Utrechtse Heuvelrug is full of culture, nature and history. This offers countless possibilities for recreational and social programs. From achery to mountainbiking. ## AMERSFOORT

*Amersfoort, together with Utrecht, forms the center in the 'network economy'. The city breathes history, but also stands out in new innovations. And Amersfoort is a city full of energy and new possibilities. The strong reputation attracts many companies, but also binds the best knowledge institutions. That, and only 18 travel minutes from Utrecht, is definitely worth a further exploration of Amersfoort as a congress city.*

But Amersfoort is more than an easily accessible city with a historic city center, many sights and many different locations. Amersfoort also shows the added value of the Utrecht Region. Green, healthy and smart are the right associations. Because summer and winter, cycling and walking: the proximity of the Utrechtse Heuvelrug, the Gelderse Vallei and the Eemvallei all provide opportunities for making combinations with a conference.
